My platform is:

Along with Jim Burgess and John Sodt, we will put students first by instituting a zero based budgeting system that begins by meeting the student's classroom needs first. We will responsibly manage the operation of the Westerville School District by bringing accountability and transparency to our district.

We will lead by creating the education plan that Westerville City Schools needs to make our children successful, through collaboration with the Superintendent, administrators and teachers. Tangible goals for the implementation of this plan will be a vital part of the goals for the Superintendent and the administration.

More detail on our plans can be found at our website, www.ForResponsibleChange.com/.
